YAFGC, the popular Dungeons and Dragons parody webcomic, is now in its fifth year of daily updates and has a regular readership of approximately 18,000. Starting with a chance encounter between Gren the Goblin and Bob the Beholder, this free-wheeling satire pokes gentle fun at the fantasy and gaming tropes we hold so dear.

The adventure under the Black Mountain continues in Volume Two! Join Lewie the Lich, Turg the Loneliest Minotaur, and the rest of the gang as they loot and plunder their way through the Arabian nights, then warm your heart with the greatest human/halfling love story ever told.

Written and drawn by Emmy-award-winning Canadian animator Rich Morris, creator of The Ten Doctors (<http://comics.shipsinker.com>) and other graphic novels, YAFGC's cheeky humour is best suited for an over-13 audience.

And watch for YAFGC: Volume 1, also available! ISBN: 978-0-9866184-0-6
